

# MOBILITYWORKS<sup>®</sup>

## COMMERCIAL

MobilityWorks Commercial is America's largest mobility van manufacturer, growing steadily from our inception in 1997. Since 2005, we have worked closely with Ford designers and engineers to become one of the first adaptive vehicle manufacturers to qualify for Ford's Qualified Vehicle Modifier (QVM) certification program, and are proud to have Ford's largest mobility bailment pool with E-Series units in stock and ready to ship.

All MobilityWorks Commercial vehicles are crash tested and are compliant with FMVSS, CMVSS, OEM and ADA standards. We have wheelchair accessible and other adaptive vehicles to meet the needs of many industries including Non-Emergency Transport, Taxi, Nursing Home, Senior Care, Hotel, Law Enforcement and more.

### Our Vehicle Lineup

#### Wheelchair Vans & Ambulettes

Non-Emergency ADA-Compliant ambulettes with wheelchair passenger lifts built on the solid Ford E-Series chassis. With a wide variety of floor plans available for both side or rear lifts, these full-size vans can meet practically every need.

#### Specialty Wheelchair & Transport Vans

Shuttles, transporters, and center aisle vans seat up to 14 in comfort for hotels, schools and nursing homes, or in secure and "indestructible" interiors for prisons and law enforcement. Wheelchair accessibility and other custom options also available.

#### Wheelchair Accessible Minivans

Economical, fuel-efficient, ADA compliant, and just the right size for many businesses and organizations, our minivans hold up to two passengers in wheelchairs. Available on Dodge/Chrysler or Toyota chassis with manual fold-out 1000 lb. capacity ramp.

#### Minibus Shuttles & Paratransit Buses

Offer a variety of cutaway minibuses and center aisle wheelchair accessible buses for up to 45 passengers built on Ford, GM and Freightliner chassis in lengths from 20 to 39 feet. Many custom seating, lighting and interior options available.
