## Commercial Vehicles Customized to Your Needs!

MobilityWorks maintains an inventory of partially-built new commercial vehicles

to meet your immediate needs. These are available through our Road Ready Program. The roof and doors are raised in a variety of popular styles, and the interior is finished. We can add seats, wheelchair restraints and other accessories of your choice, and your new van can be ready to ship in 7-10 working days.

We also carry demo units of commercial vans for your test drive and inspection. These models are available for immediate purchase if you have a need which can be met by one of our demo models.

## Advanced Safety

- FMVSS 220 Compliant – raised roof conversions meet or exceed static load test requirements, providing increased safety and reduced liability
- Americans with Disabilities Act (ADA) specification capable
- Ford Truck Quality Program (FTQP) participant

## Ultimate Comfort

- Insulated for a quiet ride
- Easy loading and unloading

## Easy Maintenance

- Proprietary one-piece, ABS plastic walls and headliners make cleaning easy
- Interiors look the same after 5 months or 5 years

## Customized Solutions

- Many side and rear lift floor plans available, or will custom-design a vehicle to fit your needs
- Quality custom striping, lettering and painting
- Four top options are available on extended or regular vans
- Braun, Ricon or Maxon lifts available
